

Workshop on the sharing of experience in dealing with Maritime Disasters

Please add as many details as possible and if you have developed a contingency plan as advised by Resolution 1/2005 – IHO Response to Disasters, please provide this if you are willing to share it

Emergency Contacts – Who is the focal point? Who are the listed Emergency contacts?

In Costa Rica we have the National Emergency Commission, which is the entity in charge of all kind of emergencies, we don't have a specific contact to report maritime disasters. The National coastguard, Meteorological Institute, Universities, Local Governments and Ministry of Public Works and Transportation are entities involved in collaborate with the National Emergency Commission.

Prediction – What prediction and forecasting work is being done?

In Costa Rica there are installed two sea level stations which can be consulted in <http://www.ioc-sealevelmonitoring.org/>

Planning – What plans do you have in place? Do you have a contingency plan? if so, please can you share it?

In the web page of the National Emergency Commission there are some guidelines about how to response in case of tsunami.

<https://www.cne.go.cr/index.php/gestireventiva-la-instituci40/36-educacion-y-asesoria/736-medidas-de-seguridad-en-caso-de-tsunami>

Recovery – What is your recovery plan? Do you have lessons learned from previous experience?

I don't have knowledge about lessons learned of previous experiences.
