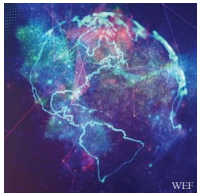
Multiagency MSDI Governance

IHO 34th NSHC, Thursday 26th March 2020, Reykjavik – Iceland

EUR ING **Dr Gerald J Wong** MPhys MBA EngD MIET MInstP CEng CPhys

Data Strategy and Information Governance Lead



UK Hydrographic Office

Topics to be Covered …

1) Promoting the UN-GGIM IGIF model as a helpful expansion on the current MSDI Four Pillars.

2) Advocate for balanced MSDI development between technology and Governance.

3) Outline the key elements for an umbrella multiagency MSDI Governance framework.

- ➢ Hard Governance = traditional Command and Control; via prescriptive rules and detailed procedures.
- ✓ Soft Governance = emerging Behavioural techniques; via principles, empowerment and Best Practice.

The UN-GGIM IGIF Nine Pathways model

Governance

Technology

In Closing …

- ✓ An MSDI is far more than purely technology – the IGIF model captures socioeconomic aspects and wider civil considerations.
- ✓ MSDI Governance is most effective when balancing development between non-technological enablers and the technology itself.
- ✓ For many developed nations, multiagency umbrella Governance can enable the early cooperation needed for an effective MSDI.
