

IC-ENC submission to Mexico/MICC Chair ahead of MICC Meeting, Belem, December 14th

"New" ENC Actions from October 12 2016 Conference Call		
IC-ENC and Mexico to engage in direct communication to address the overlap and ENC release of Mexican ENCs issue, noting the status and expected course of action and report to the next meeting.	James Harper/ Leonardo Tune Humberto	Oct 2016 Dec 14, 2016

Summary of position:

All 8 Band 2 cells were validated and reports returned to Mexico in December 2014. IC-ENC and Mexico have been engaged in communication during the past 24 months where Mexico have kept IC-ENC informed of progress. However, no subsequent new versions have been sent to IC-ENC for validation since then. Therefore, all cells are likely to need to be updated and revalidated by IC-ENC. Therefore:

- IC-ENC require MX to send 8 band 2 cells for validation.
- Once Passed Validation they will be released together with Cancellation Updates provided by UKHO.
- Note some cells need clipping to US, FR, GB data before being released. Please see table below. i.e. bilateral co-ordination required.
