Survey to Member States to assess their preference of Electronic Chart Scheme for the MACHC

According to the MRES Working Subgroup research and analysis, there are three proposals for gridded schemes in the MACHC region available for adoption. Member States are invited to give their opinions and preferences on the grids and how they will affect their areas of production.

Which of the three ENC grids presented by the MACHC MRES is preferred for the MACHC region?

| Grid | Selection | Why or why not? |
|--------------|-----------|-----------------|
| MACHC | | |
| NOAA | | |
| UKHO | | |
